COURSE SYLLABUS

WHAT WORKS IN
EDUCATION!!

LEARN WHAT WORKS IN EDUCATION
AND HOW TO IDENTIFY, ANALYZE AND
IMPLEMENT EVIDENCE-BASED
EDUCATION POLICIES THAT IMPROVE
LEARNING THROUGH PRACTICAL
RESEARCH AND CHALLENGES
OBSERVED IN THE DENTAL
EDUCATION SYSTEMS.

Module 1: Introduction

We will spend this module researching the main issues of education systems in India, while introducing the 5 dimensions of success in education policy that we will delve into in the following modules.

Module 2: High goals

Establish the need to define high-level student learning goals that guide all activities of the medical education system.

Module 3: Professional Initiation

To ensure that all students enter the college system ready to learn we must provide full access to high-quality professional programs.

Module 4: Effective teachers

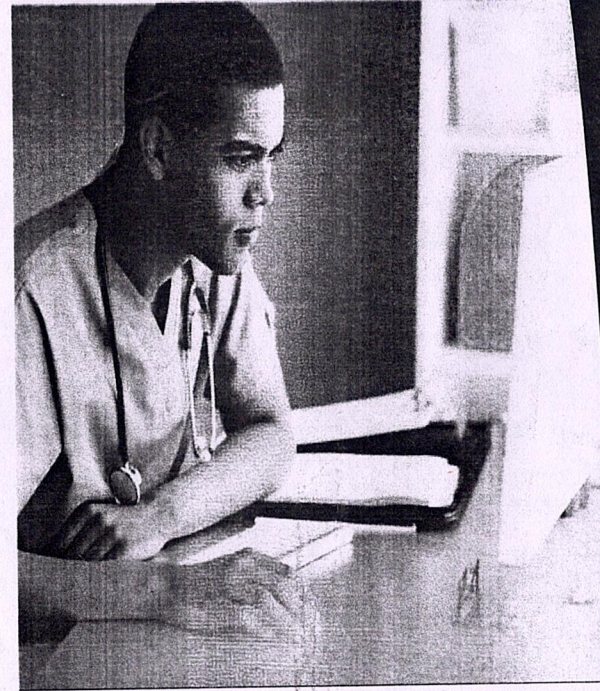

We will understand why it is important to have high-quality professors, and we will discuss the characteristics that a good professor should have, and we will see how appropriate policies can help our region to improve teacher quality through an improvement in recruiting and talent management.

Module 5: Adequate resources

We will discuss how to ensure that all medical teaching institutions have adequate infrastructure, finance and technological resources and be able to use them effectively for improving learning. We will also address one of the most important issues our region faces in education: how to ensure that resources have a positive impact on most vulnerable populations.

Module 6: Relevant skills

We will discuss how to promote education policy to ensure that all young people acquire the necessary skills to achieve their maximum potential in the workplace and contribute to society.

COURSE DETAILS

Date: 14-10-2019 to 20-10-2019

Report for FDP - Evidence-Based Education Policies

The faculty professional development program titled “Evidence-Based Education Policies” has been conducted successfully from 14-10-2019 to 20-10-2019, at Index Institute of Dental Sciences, Indore. A total of 76 members from the faculty participated in the program. The program began with the lighting of the lamp by the honourable dignitaries and a grand opening address from the Honourable Vice Chancellor, Malwanchal University – Shri N. K. Tripathi, which gained huge applause. During the 7-day program major emphasis was laid on helping the participants inculcate a well-defined purview of the latest proven educational policies, an applied understanding of which policies promote learning, evidence-based reform, and a study of successful cases from all over India and the world, under the mentorship of our honourable speaker, **Dr. Shahji Thomas**, a renowned surgeon with enumerable accolades to his name.

The chief aim of the course was to develop an understanding of what works in a setting with professional education system and how to identify, analyse and implement evidence-based education policies that improve learning through practical research and challenges observed in the medical education systems.

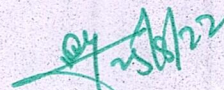

Registrar
Malwanchal University
Indore (M.P.)

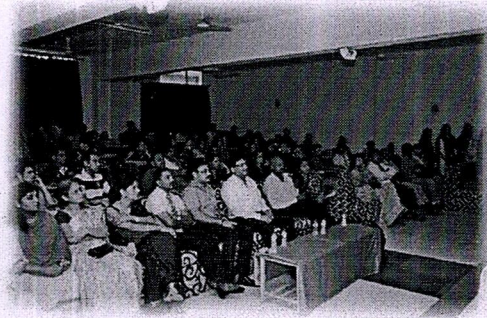

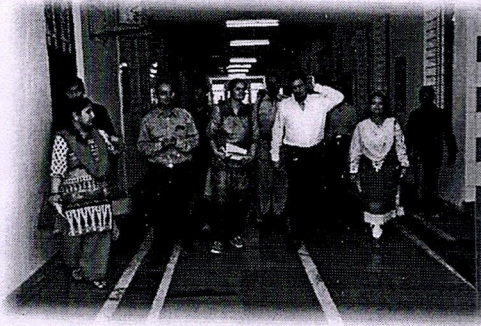

All together the program included 6 modules. The first module included researching the main issues of education systems in India, while introducing the 5 dimensions of success in education policy that we will delve into in the following modules. The second module included establishment of the need to define high-level student learning goals that guide all activities of the medical education system. The third module emphasized on the need to ensure that all students who enter the college system ready to learn, must be provided with full access to high-quality professional programs. The fourth module helped the participants understand why it is important to have high-quality professors, while discussing the characteristics that a good professor should develop with appropriate policies that can help improve teacher quality through an improvement in recruiting and talent management. In the fifth module were discussed the relevance of ensuring that that all medical teaching institutions have adequate infrastructure, finance and technological resources and be able to use them effectively for improving learning, and finally module six wherein the methods for promoting education policy to ensure that all young people acquire the necessary skills to achieve their maximum potential in the workplace were discussed through various group exercises.

The whole program was received great enthusiasm by the participants, and it ended on a high note with the closing speech by the honourable Dean, IIDS -

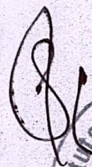

Dr. Satish Karandikar.

FACULTY DEVELOPMENT PROGRAMME FOR TEACHING STAFF ON OUT COME BASED EDUCATION TRAINING PROGRAMME

Overview

Index nursing college affiliated to Malwanchal University organized faculty development programme for teaching staff on "OUT COME BASED EDUCATION TRAINING PROGRAMME" from 16 to 20 September 2019 under the guidance of Dr. Jinu K. Rajan, Principal, Index Nursing College and with the blessings of Shri. Suresh Singh Bhadoria, Chairman, Index Group of Institutions.

Course outline:

Educational theory that bases each part of an educational system around goals (outcomes). By the end of the educational experience, each student should have achieved the goal.

OBE can primarily be distinguished from traditional education method by the way it incorporates three elements: theory of education, a systematic structure for education, and a specific approach to instructional practice.

In this model, the term "outcome" is the core concept and sometimes used interchangeably with the terms "competency", "standards", "benchmarks", and "attainment targets."

The program was organized for three days and the timings were from 2:00 am to 4:00pm. The first day session was started with registration at 2:00am. This was followed by inaugural ceremony. The Chief Guest was Dr. Rudraksh Gautam Indore, M.P. The inauguration session was started with lighting the lamp by the chief guest with the Principal and Organizing Secretary. After lamp lighting, welcome speech was delivered by miss. Arti Neeraj Tutor/Clinical Instructor. This was followed by a break of 15 minutes. The first educative session was given by the chief guest, Dr. Rudraksh Gautam, on "Introduction to

Title – Faculty Development Program on Beat stress Boost Happiness

Date -21/10/2019 to 25/10/2019

Venue – Index Department Of Physiotherapy and Paramedical Science, Indore

Resource Person -Dr. Anchala dixit

“In times of stress, the best thing we can do for each other is to listen with our ears and our heart “

Five days program was organised by Index Department Of Physiotherapy and Paramedical Sciences, Malwanchal University, Indore on 21/03/2019 to 25/03/2019. The program started with the lightening of the lamp, in which Dr. Reshma Khurana, Principal, Index Department Of Physiotherapy and Paramedical Science, Resource Person, Dr. Anchala Dixit and all the faculty members of institution were present.

Day 1 program (21th October'2019)

- *Be active
- *Connect with people
- *Be active

Exercise won't make your stress disappear, but it can reduce some of the emotional intensity that you're feeling, clearing your thoughts and letting you deal with your problems more calmly.

- *Connect with people

A good support network of colleagues, friends and family can ease your work troubles and help you see things in a different way.

Day 2 of program (22th October'2019)

- * Have some “me time”
- *Challenge yourself
- *Work smarter, not harder

- *Have some “me time”

Many of us work long hours, meaning we often don't spend enough time doing things we really enjoy.

- *Challenge yourself

Setting yourself goals and challenges, whether at work or outside, such as learning a new language or a new sport, can help build confidence. This may help you deal with stress.

It can also make you want to do things and be active.

- *Work smarter, not harder

Day 3 program (23/10/2019)

- * Avoid unhealthy habits
- * Help other peoples
- * Try to be positive
- * Accept the things you can't change
- *Avoid unhealthy habits

Don't rely on alcohol, smoking and caffeine as your ways of coping

***Help other people**

Evidence shows that people who help others, through activities such as volunteering or community work, often become more resilient.

If you don't have time to volunteer, try to do someone a favour every day. It can be something as small as helping someone cross the road or going on a coffee run for colleagues

- Try to be positive

Look for the positives in life, and things for which you're grateful.

Try writing down 3 things that went well, or for which you're grateful, at the end of every day

Day 4 program (24/10/2019)

* Boost happiness

*Meditate

*Infuse Positivity Into Your Surroundings

- Meditate

Take just five minutes each day to watch your breath go in and out. While you do so, try to remain patient. If you find your mind drifting, just slowly bring it back to focus. Meditation takes practice, but it's one of the most powerful happiness interventions. Studies show that in the minutes right after meditating, we experience feelings of calm and contentment, as well as heightened awareness and empathy. "Making time to go outside on a nice day also delivers a huge advantage; one study found that spending 20 minutes outside in good weather not only boosted positive mood, but broadened thinking and improved working memory... studies have shown that the less negative TV we watch, specifically violent media, the happier we are."

Day 5 program (25/10/2019)

* Think of a person you love

*Pick a self-care activity

* Set your goals

*Think of a person you love

Just the simple act of bringing to mind (and heart) someone you love shifts the chemicals in your brain and increases happiness. Your brain doesn't know the difference between if they are standing right next to you or if they live far away, but it does know that this person makes you feel good and your body rewards with a flow of feel-good hormones. Just the simple act of bringing to mind (and heart) someone you love shifts the chemicals in your brain and increases happiness. Your brain doesn't know the difference between if they are standing right next to you or if they live far away, but it does know that this person makes you feel good and your body rewards with a flow of feel-good hormones

- Set your goals

Thinking about your long-term dreams and goals has been shown to give your brain a sense of increased control, which rewards you with more hormones that make you feel not only "good" but motivated to achieve your goals.

The main purpose of this program is to teach faculties this latest system of physiotherapy.

Certificate were distributed to all the faculties.

The program was successfully done under the guidance of Dr. Anchala dixit.

The workshop ended by Vote of thanks by Dr. Ravindra Kolhe and presenting mementos to Dr. Anchala dixit.

INDEX

Department of Physiotherapy & Paramedical Sciences

Title - Making Video lecture for Digital learning generation

Date:- 16/3/2020 – 20/3/2020

Resource Person:- Dr. Sandeep Solanki

Venue:- Index Department Of Physiotherapy and Paramedical Sciences

- Index Department Of Physiotherapy and Paramedical Sciences organised a faculty development program started with lamp lighting. The program is attend by the faculty.

A **video lesson** or **lecture** is a video which presents educational material for a topic which is to be learned.

Steps for Recording Engaging Lecture Videos

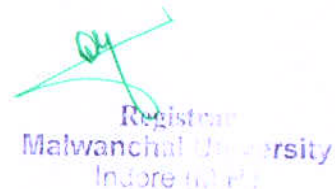

1. Prepare your lecture and slides.
2. Download your lecture capture software or app.
3. Optimize audio and video quality.
4. Record a test video to check the quality of your audio and video.
5. Record and edit with your lecture capture software or app.
6. Share your lecture video to your LMS.

How to Create an Effective Lesson Using Video

1. Visual Aids in Enhancing the Learning Process.
2. Identify the level of your students.
3. Determine your essential questions and learning goals.
4. Prepare materials required.
5. Create proper video content.
6. Reflection and Assessment.
7. Conclusion.

Simple Tips for Making Your Videos Look More Professional

1. Use Plenty of Light. ...
2. Use a Clean Background. ...
3. Choose a Good Video Editing Program. ...

4. Keep Your Editing Simple. ...
5. Prioritize Crisp, Clear Audio. ...
6. Avoid Shaky Footage. ...
7. Understand the Rule of Thirds. ...
8. Use Your Phone the Right Way.

Structure the lecture clearly

- Be transparent. ...
- Make explicit transitions between topics with mini-summaries. ...
- Cover only a few main points in each lecture. ...
- Avoid merely repeating the course readings. ...
- Be flexible when following your notes.

It appears from literature reviews that the framework for distinguishing a good lecturer from a bad one is reasonably well established. What variation there is within this framework is the degree of complexity and completeness of criteria under specific headings. Fisher et al. (1998) provide twenty-one criteria for defining a good lecture. They argue that good lectures should, under four heads, do the following:

Strategy

- present materials in an interesting way;
- act as an academic role model;
- build on students' previous knowledge.

Organisation

- provide clear explanations;
- ensure lecturers have a defined structure;
- provide periodic summaries during the lecture.

The course is ended with vote of thanks and the whole session is very knowledgeable
