Career Guidance Workshop - Courses and specializations after MBBS: in the field of Engineering

REPORT

A workshop titled '**Courses and specializations after MBBS: In the field of Engineering'** for final year MBBS students and interns was held on 11/09/20, regarding their Career guidance after their internship completion.

This workshop was done in the auditorium, at Index Medical College, Hospital & Research Centre, Indore. The resource persons for the workshop were Manila Jain, Dept. of Physiology & Dr. Poonam Patel, Dept. of Pharamacology.

From cancer research to agriculture advancements, medical biotechnology has many promising avenues of technological growth that have the potential to help many people.

Medical biotechnology is a branch of medicine that uses living cells and cell materials to research and then produce pharmaceutical and diagnosing products. These products help treat and prevent diseases. From the Ebola vaccine to mapping human DNA to agricultural impacts, medical biotechnology is making huge advancements and helping millions of people.

Some of the most recent uses of biological tech is work in genetic testing, drug treatments, and artificial tissue growth. With the many advancements in medical biotechnology, there are new concerns that arise. From funding to ethics, there are

Dean

Hospital & R.C., INDORE

Registrar
Devi Ahilya Vishwavidyalaya
Indore (M.P.)

many things to determine and regulate when it comes to this fast-paced industry. Learn about the many technical biology advancements and the concerns surrounding them.

Major Medical Biotechnology Advancements – CRISPR technology, Tissue Nano-transfection, Recombinant DNA Technology, genetic engineering, Stem Cell Research, Vaccine discovery.

So biotechnology is technology based on biology, while Bioinformatics is combination of biology and information technology. So MBBS doctors are essential for these industries.

The modules of the workshop were:

- Understanding Medical Vocation – An Introduction
- Courses to pursue after MBBS in India – Available Options
- Careers in Biotech Engineering – M. Tech. (Biotechnology), M. Tech. (Nano Biotechnology), M. Tech. (Medical Biotecchnology), M. Tech. (Industrial Biotechnology), M. Tech. (Plant Biotechnology), M. Tech. (Animal Biotechtechnology), M.Tech. (Bio Engineering)
- Career in Genetic Engineering – M. Tech. (Genetic Engineering)
- Career in Molecular Medicine – M. Tech. (Molecular Medicine)
- Career in Food safety – M. Tech. (Food Technology)
- Career in Bioinformatics – M. Tech. (Bioinformatics)
- Careers – M. Tech. after MBBS – Pros & Cons
- How to decide – Interests and Goals

The following measures were also decided upon:

- Students were assigned with a mentor of their preferred stream for counseling and suggestions.
- They were guided regarding their interested discipline for PG courses and different examinations of said courses.
- Students were guided for government/ private/ corporate set ups after their PG studies.
- Students interested in laboratory/clinic establishment were guided about regulatory norms and other details.
- Those who were interested in academics were told about Career/ branches of said disciplines.
- Students interested in medical + engineering research were given details of different establishments (government/ private/ corporate) and told about requirement of such establishment.

Career Guidance Workshop - Courses and specializations after MBBS with focus on Clinical Research

REPORT

A workshop titled '**Courses and specializations after MBBS with focus on Clinical Research'** for final year MBBS students and interns was held on 24/10/20, regarding their career guidance after their internship completion. This workshop was done in the auditorium, at Index Medical College, Hospital & Research Centre, Indore.

The resource persons for the workshop were Dr. Rajnish Jain, Dept. of Community Medicine & Dr. Preeti Kori, Dept. of Medicine.

The modules of the workshop were:

- Module 1: Introduction to Clinical Research
- Module 2: Conceptualizing the Clinical Trial Study/Protocol
- Module 3: Protocol Review, Implementation & Monitoring
- Module 4: Data Quality & Results Reporting
- Module 5: Topics of Special Interest

Dean

Hospital & R.C.,INDORE

Registrar
Devi Ahilya Vishwavidyalaya
Indore (M.P.)

It was explained that clinical research is field that is ever expanding bringing forth new discoveries and dimensions that help in development of new treatments. Drugs are tested and so are devices through the help of volunteers either suffering from a condition or helping out to discover new methods. They give direction to the treatment modules and each research is a small step in getting out the best from science. Physicians, scientists, volunteers along with a team of people work tirelessly on a research protocol, sometimes for years to come up with acceptable results.

Next, the basics about clinical trials were explained and how they are conducted where it was explained that they occur in a series of steps called "phases." Each phase has a different purpose and helps researchers answer different questions.

- **Phase I trials**: Researchers & Doctors test a drug or treatment in a small group of people (20–80) for the first time. The purpose is to study the drug or treatment to learn about safety and identify side effects.
- **Phase II trials**: The new drug or treatment is given to a larger group of people (100–300) to determine its effectiveness and to further study its safety.
- **Phase III trials**: The new drug or treatment is given to large groups of people (1,000–3,000) to confirm its effectiveness, monitor side effects, compare it with standard or similar treatments, and collect information that will allow the new drug or treatment to be used safely.
- **Phase IV trials**: After a drug is approved by the FDA and made available to the public, researchers track its safety in the general population, seeking more information about a drug or treatment's benefits, and optimal use.

Index Medical College, [illegible]

Registrar
Dhanwanchal University
Indore (M.P.)

The speakers also discussed the various steps involved in getting protocol reviewed, accepted and implemented. The role of scientific and ethical committees was also brought forth. The budget segregation and allotment was also discussed.

Next, the speakers focused on production of quality data and its associated factors. Lastly, topics of special interest like the research the students were interested in were explained.

The following measures were also decided upon:

- Students were assigned with a mentor of their preferred stream for counseling and suggestion.
- Students interested in CROs/laboratory/clinic establishment were guided about regulatory norms and other details.
- They were given advice for legal aspects of Clinical Trials.
- Students interested in Clinical Research were given details of different establishments (government/ private/ corporate) and told about requirement of such establishment.

Career Guidance Workshop - Courses and specializations after MBBS in the field of Medicine in abroad

REPORT

A workshop titled '**Courses and specializations after MBBS in the field of medicine in abroad'** for final year MBBS students and interns was held on 17/04/21, regarding their career guidance after their internship completion.

This workshop was done in the auditorium, at Index Medical College, Hospital & Research Centre, Indore. The resource persons for the workshop were Dr. Ravindra Kumar Gupta, Dept. of Orthopaedics & Dr.Rohini Chouhan, Dept. of Dermatology.

Abroad medical post-graduation degrees earned by MBBS doctors are yet to be recognized by India's medical education regulator. At present PG degrees from only 5 English speaking countries i.e. USA, UK, CANADA, AUSTRALIA, NEWZEALAND are recognized in India. While doctors with post graduate degrees from rest of the world e.g. countries like China, Russia, France, Japan; are not approved & recognized in India.

In NEET PG 2021, approx. 1.8 lakhs MBBS doctors had appeared and as per latest updates there will be around 45000 PG medical seats for session 2021-22. Last year various PG seats MD and MS programs have been increased. These seats will be available for current 2020-21 session. The Medical regulatory body of India have given the permission for this increment.

Dean
Index Medical College,
Hospital & R.C.,INDORE

Registrar
Dr. Harisingh Gour Vishwavidyalaya
Sagar (M.P.)

So, approx 1.8 lakhs MBBS candidates are fighting for 45,000 medical PG seats. In which thousands of seats are nonclinical branches e.g. Anatomy, Pharmacology etc.; they remain empty every year. So these 5 english speaking countries – US, UK, CANADA, AUSTRALIA & NEWZEALAND are very good option to pursue clinical PG branches.

The modules of the workshop were:

- Understanding Medical Vocation – An Introduction.
- Courses to pursue after MBBS in abroad – Available Options
- Latest NMC gazette about PG medical degrees which areapproved & recognized by NMC – only 5 english speaking countries – US, UK, CANADA, AUSTRALIA & NEWZEALAND.
- Careers in pre-clinical branches – M. Sc.(Medical) & Ph.D. (Medical)
- Careers in para-clinical branches – M. Sc.(Medical) & Ph.D. (Medical)
- Careers in clinical branches – Residency programs available in US, UK, CA, AUS & NZ.
- Careers – Foreign PG medical degrees – Pros & Cons
- Explanation about licentiate examinations of Developed countries e.g.USMLE for USA, PLAB (UKMLA) for UK, MCCQE for CANADA etc.
- How to decide – Interests and Goals

Dean

The following measures were also decided upon:

- Students were assigned with a mentor of their preferred stream for counseling and suggestion.
- They were guided regarding their interested discipline for PG courses and different examinations of said courses.
- Students were guided for government/ private/ corporate set up jobs in abroad;after their Medical PG studies from the respectiveforegin country.
- Students interested in laboratory/clinic establishment, in a particular country; were guided about regulatory norms and other details.
- They were given advice for legal aspects of private practice.
- Those who were interested in academics were told about Career/ branches of said disciplines.
- Students interested in medical research were given details of different establishments (government/ private/ corporate) and told about requirement of such establishment.

Webinar: NEET PG entrance preparation orientation and guidance

Report

Date: 17th December, 2020

Date: 16th December, 2020
Venue: Google Meet online
Number of attendees: 43

Index Institute of Dental Sciences, Indore organized a webinar for interns on "NEET PG entrance preparation - orientation and guidance" on 16th December, 2020. This session was held through Google meet platform.
Students not only from current batch but alumni also joined the session and benefitted from the same.The target audience for the program was mainly the interns and final year students. It was done with the intention that students should get timely exposure to the format of the examination.

Before the session a pre-test was conducted to enable the students to access their level of preparation and gear up the students for the session.
The mentors of the session were Dr. Ranjith and Dr Shweta N. from the Amalgm PG preparation academy. Dr Ranjith completed his undergraduation from Kilpauk Medical College, Chennai and he entered into postgraduate training in Pathology in the prestigious JIPMER at Pondicherry.

Dr. Ranjith has a vast experience in teaching undergraduates for competitive exams. He has authored and contributed to more than 12 books in the competitive exam category.
He has been mentoring students oriented to NEET exams for the past 6 years and have mentored thousands of students every year.
Dr Shweta has completed BDS from TN MGR Medical University with a gold medal and MDS Orthodontics and Dentofacial Orthopaedics from Rajiv Gandhi University of Health Sciences.
The session was conducted in two parts:

First part covered -

- The opportunities available to BDS graduates in term of overseas education, work opportunities.
- Various streams like research and development, business administration, hospital management.

The next part of the session covered specific topics like-

- Pattern of NEET PG examination.
- Individual weight age of the subjects.
- Scoring criteria and ways to maximize the same.
- Current strategies to prepare for the examination.
- Managing exam stress.

Report of Webinar

Webinar: NEET PG entrance preparation orientation and guidance

Report

Date: 17th December, 2020

Dr Ranjith said that on the day of the exam, you'll be presented with 240 questions… may be easy, maybe difficult, but it'll be the same for all.

All of your focus for the next 7-8 months is to practice to perform well during those 3 hours and get maximum strikes. Build that mindset to answer any question from any subject, incrementally. Focus more on practicing more questions by taking tests and going through their explanations. As students set on their journey of preparation, the vast syllabus of NEET MDS exam acts as a major hurdle, which discourages the students at first glance. With more than 14 subjects and 400 topics, it is indeed a herculean task to cover and remember the contents of the entire syllabus. Dr. Shweta N. suggested making use of selective learning and smart work to prepare for the NEET MDS exam. The NEET MDS should not be approached in the way subjective papers are looked at. Since NEET MDS is an objective type test, the preparation should also be objective and to the point. There is no need for comprehensive coverage of syllabi for two reasons.

*Cramming and memorization is of no help in the NEET MDS exam.
*Comprehensive study takes a lot of time.

Hence aspirants need to sort out the subject matter well in advance, which should consist of the important topics from each subject. The topics need to be put in a tabulated form and number of days for completion of each topic should be stipulated alongside. This will help you to chart down your daily schedule and you would straight away get down to the business without wasting time on choosing what to study 'today'. It cuts down wasteful activities by almost 50 percent. Now, the question is how can the subject-matter be selected?

Useful strategies include:

*Decoding the semantics of previous year papers of MDS
*Deciphering the most asked topics
*Taking guidance from your seniors
*Make a note of high yielding topics and begin with these topics in the first phase of your preparation.

The lecture was followed by an interactive session wherein the students clarified their doubts and got guidance regarding goal setting and effective utilisation of time towards the preparation.

The session was moderated by Dr Megha Vansi, lecturer Index Institute of Dental Sciences. The mentors shared their contact details for continued guidance and support in the future.

" Program On Professional Orientation"

DATE: 24/07/2020

OVERVIEW

Index nursing college affiliated to Malwanchal University organized program on "Career Counseling" from 24 July 2020 with the blessings of Mr. Suresh Singh Bhadoria, Chairman, Index Group of Institutions and under the guidance of Dr. Prof. Smriti G. Solomon, Principal, Index Nursing College

COURSE OUTLINE

This course is to provide students with an understanding of career development and the role of the career counselor. The course is designed to examine theories of career development and decision making, sources of occupational information and methods of career counseling, assessment and program planning. Both theory and the practical application of career counseling will be explored through lectures, class discussions, readings, writings and projects. Students will have the opportunity to practice various career counseling techniques and gain an understanding of their own career development.

Principal
INDEX NURSING COLLEGE
INDORE (M.P.)

OBJECTIVE

Identify and describe major theories of career development and decision-making. Learn the principlesofcareerprogramdevelopment,implementation,administration and evaluation in school and community settings. Understand the relationships among various life roles including those of work and family, and such factors as gender and cultural diversity. Discuss the use of technology in career counseling including computers as sources

MODULE

- Introduction History of Career Counseling
- Legal and Ethical Issues
- Career Theory and Strategies
- Web Presentations Sources of Occupational Information and Resources

REPORT ON

"PROFESSIONAL ORIENTATION"

OVERVIEW

Index Nursing College affiliated to Malwanchal University organized a program on **"Professional Orientation"** from **date 24 july 2020** with the bension of Mr. Suresh Singh Bhadoria, Chairman, Index & Amaltas Group of Institutions. The course was conducted under the guidance of Dr. Prof. Smriti G. Solomon, Principal, Index Nursing College.

Course outline:

Career counseling helps students decide how to study and what to study. It will help students to bring out one's interest to pursue their career, and help gaining the right skill. It will aid students to focus which can truly reflect in their deeds and work. Students choose either to opt for a job or else can go forward and continue their higher education. Student will realize their passion in today's extremely tough competitive world.

Objectives:

Students will be able to understand career counseling, realize need and importance of career counseling, discuss and demonstrate soft skills in nursing, enlist and demonstrate hard skills in nursing, acknowledge scope of nursing (higher education), understand scope of nursing (job opportunities) and enlist competitive exams in India and in abroad.

The program was organized for three days and the timings were from 9:00 am to 4:00pm each day. At 9:00 am the first day session was started with registration of delegates. This was followed by inaugural ceremony. The Chief Guest Prof. Synthia Singh, Professor, Mental Health Nursing, SAIMS College of Nursing, Indore, & Prof. Ankush Patrick, Amaltas Nursing College, Indore, M.P. The inauguration session was started with lighting the lamp by Principal and Organizing Secretary. After lamp lighting, welcome speech was delivered by Ms. Neha Chouhan, B.Sc. Nursing 4th year student. From 10:00 am pretest was taken followed by a break of 15 minutes.

Principal
INDEX NURSING COLLEGE
INDORE (M.P.)

Registrar
Malwanchal University
Indore (M.P.)

The first educative session was given by Dr. Reena Thakur, Professor, Index Nursing College on "An overview- Career Counseling In Nursing". In the session she discussed about considerable variation in the terminologies that is used worldwide. Students understood that the process will help to know and understand themselves and world of life.

The second session of the day was on "Need and importance of Career Counseling In Nursing" and the speaker was Dr. Prof. Smriti G. Solomon, Principal, Index Nursing College. The session pointed on the indispensability of career counseling and importance of bringing out one's interest to pursue their career and help gaining the right skill in today's competitive world. The session was followed by lunch break.

The afternoon session was started at 2:00 pm and the session was headed by Prof. Th. Bidyani Devi, Index nursing College on the topic "Skills in Nursing: Soft Skill" The session gives emphasis on the soft skills a nurse should possess e.g. empathy, networking, critical thinking, problem solving, decision making, confidence, leadership, ethical practice, team player & communication skills focusing on the interview technique and curriculum vitae writing etc. It was also pointed that in which skills recruiters give preference to the candidates i.e. who have the desired skills that can improve on job performance.

Outcome of the Program

Delegates have gained knowledge regarding various opportunities of career after completion of B.Sc. nursing programme. Students realize the need and importance of career counseling. Student nurses acknowledge scope of nursing (higher education), understood scope of nursing (job opportunities) and various competitive exams in India and in abroad. The program was a great success.

MODULE

1. Introduction on pharmacy.
2. Pillars of pharmaceutical science.
3. Why pharmacy as career.
4. Branches of Pharmacy.
5. Scope in industries.

LEARNING OUTCOMES:-

1. Students get aware about the industries and work profile.
2. They get to know about the different govt. sectors in pharmacy.

INDEX INSTITUTE OF PHARMACY

REPORT ON CAREER COUNSELLING

TOPIC: SCOPE OF PHRAMCY

The career counseling program was conducted for the students of B. Pharmacy which was led by Dr. Javed Khan Pathan on the topic scope of pharmacy. This session is conducted on **25/03/2021** and the venue for the seminar was classroom No. 02 of IIP.

The points he covered in his session were as follows:

1. Introduction on pharmacy
2. Pillars of pharmaceutical science
3. Why pharmacy as a career
4. Branches of Pharmacy
5.

He started his session by giving an introduction of Pharmacy. "The art and science of manufacture and dispensing drugs to prevent or cure disease thereby preserving the health of humanity at large." Next, he moved to the topic of Pillars of pharmaceutical sciences which included:

- **Pharmaceutical Chemistry:** Pharmaceutical Chemistry is a branch of chemistry that deals with the study of organic chemistry (molecules and compounds) in combination with structural & chemical biology and pharmacology for producing pharmaceutical drugs and medicines. The design, structure, and synthesis of pharmaceuticals and biologically active molecules are a part of this branch.

- **Pharmaceutics:** The Department of Pharmaceutics works to promote the efficacy and safety of therapeutics through inclusive teaching and transformative research in the drug delivery and disposition sciences.

- **Pharmacology:** The branch of medicine concerned with drugs including their, pharmacokinetics, Pharmacodynamics, therapeutic use, and toxicology.

- Pharmacology has its different branches which are as follows: Pharmacokinetics, Pharmacodynamics, Therapeutics, Chemotherapy, Toxicology, and Clinical Pharmacology.

- **Pharmacognosy:** Pharmacognosy is the study of medicines or crude drugs produced from natural sources such as plants, microbes, and animals. It includes an analysis of their biological, chemical, biochemical, and physical properties.

Pharmaceutical Analysis: Pharmaceutical analysis is a branch of chemistry, which involves a series of processes for identification, determination, quantitation, and purification. This is mainly used for the separation of the components from the mixture and the determination of the structure of the compounds. Based on the determination type, there are mainly two types of analytical methods. They are as follows:

Qualitative analysis: This method is used for the identification of chemical compounds.
Quantitative analysis: This method has used the determination of the amount of the sample.
Next, he explained the scope of Pharmacy. The different fields of pharmacy are as follows:

Pharmaceutical Industries: Pharmaceutical industry, the discovery, development, and manufacture of drugs and medications by public and private organizations. In Pharmaceutical industry, it is divided into Research and Development (R&D), which includes QA, QC, biotechnology, pharmacology, drug discovery, and regulatory affairs.
Production in include the production of a tablet, capsules, injection, other dosage form, cosmetics, etc
Marketing includes sales promotion and sales executives.
The famous pharmaceutical industries are Lupine, Glen mark Pharmaceuticals, Myelin, Cipla, PAR formulations, etc.

1.Clinical Research: Clinical research is a component of health research intended to produce knowledge valuable for understanding human disease, preventing and treating illness, and promoting health. For example, If a new drug is discovered it undergoes clinical trial, which has different phases.

2.Pharmacy: A shop or hospital dispensary where medicinal drugs are sold to the patient. Types of pharmacy are Community Pharmacy, Hospital Pharmacy, etc.

3.Government Jobs: Railway pharmacist, Hospital pharmacist, in the department of ESIC, a pharmacist in the Indian Army, Air Force, Navy, etc.

4.Academics: In academics after post graduation they became faculties, and the profession is to teach the upcoming pharmacy students.

In this concluded interesting session, and generally interacts with the students aware about various scope in Pharmacy for their bright future.
