MET-(Curriculum Implementation Support Programme)CISP- 2 Index
Medical College Hospital & research Center (under aegis of MCI-RC,
SAIMS, Indore)7-8 September 2020 -list of participants:MCI/NMC
OBSERVER:DR MRS CHHAYA GOYAL,PROFESSOR & HOD ,DEPT OF
PHARMACOLOGY,SAIMS,INDORE

There were total 30 participants

Following Were The Resource Faculties

- 1.Dr. Prem Nyati, Professor of Pharmacology
2. Dr.Harshda shah, Professor and & HOD of Microbiology
3. Dr. S.N. Bamne, Professor of Physiology
4. Dr.Rahul Tanwani, Professor of Surgery
5. Dr. Romi Srivastava, Professor of Pathology
6. Dr Poonam Patel, Associate Professor of Pharmacology

On 1st day,

Started with registration of participants, and pre-test
Programme started with prayer to almighty god for the success of this
session and entire workshop.

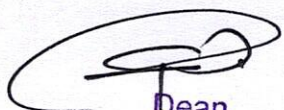

After which it is followed by welcome to the MCI- observer and
introduction to faculties and resource faculties, ice breaking session.

Next session was on goals, roles and competence in context with
competency based medical education (CBME).

The principles of competency based medical education were discussed
along with definitions of goal, role and competency and their relationship
between each other. The differences between traditional and CBME were
also discussed.

After which there was tea break.

It was followed by a session on Indian medical graduates and their
sensitization to the goals, roles and global competencies developed by the
MCI/NMC .How to link national health needs to competencies and
objectives was also discussed.

Dean
Index Medical College,
Hospital & R.C.,INDORE

Registrar
Malwanchal University
Indore (M.P.)

Next, session on competencies and objectives was taken where the differences between the two terms, importance and writing of specific learning objectives (SLO), along with developing objectives from competencies and linking domains of learning with competencies were discussed in detail by using the competency sheet.

Which was followed by workshop/hands on experience for making/formulating specific learning objectives (SLO) from given competencies, proper alignment and discussion on relevant teaching-learning methods.

This was followed by lunch

Post lunch session on graduate medical education regulations (GMER-2019) was taken where the time frame, training methods, integration, assessment, new additions like foundation course and formative feedback was discussed.

Next session was on electives and its concept.

After which there was tea break.

Post tea sessions were interactive sessions on foundation course, early clinical exposure-concept, component, timeframe and examples and AETCOM module-purpose, mission and objectives and booklet review.

On 2nd day,

The first session was on student-doctor-clinical teaching where the concepts and framework of the same were discussed followed by group activity.

It was followed by session on alignment and integration where the concepts and framework using examples from competency table was discussed.

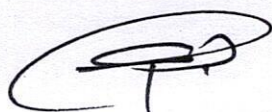

It was followed by tea break, after which session on skills training where a group activity on competency acquisition and skills lab, prescription skills were organized. This was followed by lunch.

Post lunch session was on assessment in CBME, where principles as relevant to CBME and various assessment methods were discussed.

This was followed by tea. Which was followed by group activity on aligning assessment to competency objectives & TLM.

This was followed by session on curricular governance.

Which was followed by feedback from participants, open house and valedictory and post test.

WHAT YOU'LL LEARN

MODULE #1

Identify the major types of cancer

MODULE #2

Describe how genes contribute to the risk and growth of oral cancer

MODULE #3

List and describe the cellular hallmarks of oral cancer

MODULE #4

Define metastasis, and identify the major steps in the metastatic process

MODULE #5

Describe the role of imaging in the screening, diagnosis, staging, and treatments of oral cancer

MODULE #6

We'll examine the variety of treatment options available to patients as well as the features of clinical trials and how they are used to improve the treatment arsenal.

INSTRUCTOR

Dr. S. Prabhu

He is a renowned Oral & Maxillofacial Surgeon with special expertise in the field of head & neck cancer and microvascular reconstructive surgery, amongst his numerous accomplishments. He is an active member of various National & International Maxillofacial Organizations, and is from one of the very few maxillofacial surgeons with a qualified 3 tier assessment- University, National Board, and Professional board certification.

COURSE DETAILS

DATE: 4th to 10th February, 2020

TIMINGS: 4:00 to 6:30 pm

PLATFORM: ZOOM

REGISTRATION: Free

ELIGIBILITY: Faculty members

COURSE CO-ORDINATOR:

Dr. Bhoopendra Singh Rajput

Half of oral cancer patients in India die within a year of diagnosis and are aged between 30-50 years."

"Cost of Illness Analysis of Oral Cancer",
conducted by Tata Memorial Centre

INDEX INSTITUTE OF DENTAL SCIENCES

Date: 11th February, 2020

Report for FDP – Cancer Biology

The faculty professional development program titled “Cancer Biology” has been conducted successfully from 4th to 10th February, 2020, at Index Institute of Dental Sciences, Indore. A total of 66 members from the faculty participated in the program via Zoom platform. The 7-day program, held in-keeping with the purview of World Cancer Day, opened with the address from the Honourable Vice Chancellor, Malwanchal University, Indore – Shri N. K. Tripathi, highlighting the huge menace caused by the disease in the whole of the country. Thereafter, the program directed to develop an understanding of oral cancer and how it is prevented, diagnosed, and treated. It introduced the molecular biology of oral cancer (oncogenes and tumour suppressor genes) as well as the biologic hallmarks of the same while describing the risk factors for the disease worldwide. The instructor, Dr. S. Prabhu, a renowned expert in the field of head & neck cancer and microvascular reconstructive surgery, explained how oral cancer is staged, the major ways cancer is found by imaging, and how the major cancers of the head & neck are treated, with major concerns towards the rising incidence and disease mortality with respect to oral cancers in India.

Registrar
Malwanchal University
Indore (M.P.)

The course comprised of 6 modules. The first module emphasized on the identification of major types of cancers. The second module helped inculcate the understanding of how genes contribute to the risk and growth of oral cancer. In the third module, cellular hallmarks of the disease were discussed. Module four defined metastasis, and identification of major steps in the metastatic process. Module five included discussions over the role of imaging in the screening, diagnosis, staging, and treatments of oral cancer, and in module six the participants examined the variety of treatment options available to patients as well as the features of clinical trials and how they are used to improve the treatment arsenal.

Overall, the program was highly successful with great interactive inputs from all the participants. It ended on a high note with a closing speech from the honourable Dean, Dr. Satish Karandikar.

TRAINING OBJECTIVES

- I. How to perform vulnerability assessment.
- II. Preparing for emergency.
- III. Identifying risk and management.
- IV. Criteria.

Dr. Lalita
Principal

INDEX NURSING COLLEGE
INDORE (M.P.)

Concept

A vulnerability assessment is the process of defining, identifying, classifying and prioritizing vulnerabilities in computer systems

A vulnerability assessment process is intended to identify threats and the risks they pose. They typically involve the use of automated testing tools, such as network security scanners, whose results are listed in a vulnerability assessment report.

Vulnerability assessments also provide an organization with the necessary knowledge, awareness and risk backgrounds to understand and react to threats to its environment.

Modules

- I. Performing the vulnerability assessment
- II. stages of vulnerability assessment and identification.
- III. Criteria of assessing vulnerability.
- IV. Understanding method of assessment.
- V. Emergency preparedness
- VI. Indication or ways in which vulnerability can be expressed.
- VII. Explain the difference between vulnerability scanning penetration testing
- VIII. Identifying risk at different stages and management

Eligibility – staff of Index nursing college

Start Date: 09/11/2020-13/11/2020

FACULTY DEVELOPMENT PROGRAMME FOR TEACHING STAFF ON VULNERABILITY ASSESSMENT IDENTIFICATION AND CARE

Overview

Index nursing college affiliated to Malwanchal University organized faculty development programme for teaching staff on “**VULNERABILITY ASSESSMENT IDENTIFICATION AND CARE**” from 09 to 13 November 2020 under the guidance of Dr. Prof. Smriti G Solomon, Principal, Index Nursing College and with the blessings of Shri. Suresh Singh Bhadoria, Chairman, Index Group of Institutions.

Course outline:

A vulnerability assessment is the process of defining, identifying, classifying and prioritizing vulnerabilities in computer systems

A vulnerability assessment process is intended to identify threats and the risks they pose. They typically involve the use of automated testing tools, such as network security scanners, whose results are listed in a vulnerability assessment report.

Vulnerability assessments also provide an organization with the necessary knowledge, awareness and risk backgrounds to understand and react to threats to its environment.

The program was organized for three days and the timings were from 2:00 am to 4:00pm. The first day session was started with registration at 2:00am. This was followed by inaugural ceremony. The Chief Guest was Dr. Mayank Indore, M.P. The inauguration session was started with lighting the lamp by the chief guest with the Principal and Organizing Secretary. After lamp lighting, welcome speech was delivered by Miss. Sapna waskel tutor/clinical instructor. This was followed by a break of 15 minutes. The first educative session was given by the chief guest, Dr. Mayank, on “Introduction to vulnerability assessment identification and care”. In the session she discussed about the vulnerability

Medication Error

TRAINING OBJECTIVES

1. To decrease medication error.
2. To improve patient safety through determining and reducing the major causes of medication error.

MODULE

1. Types of medication error.
2. Causes of medication error.
3. Factors contributing to medication error .
4. The 6R's.

CONCEPT

A medication error can be defined as " a failure in the treatment process that leads to harm to the patient.

The confusing drug names are one of causes of medication error. This error may harm or even cause death of the patient.

In most cases mistake have occurs if checking before dispensing is not done properly.

LEARNING OUTCOMES

1. Dispensing of drugs .
2. Familiar with LASA drugs.

Schedule

Contact Person : Ms. Avika Sharma

Date : 05/03/2021 to 06/03/2021

Venue : Room No 2 of DOP

Resource Person : Dr. S.M. Holkar

Dr. Prem Niyati

INDEX INSTITUTE OF PHARMACY

REPORT FOR FDP MEDICATION ERROR

The Faculty Development Programme was scheduled between 05/03/2021 for 2 hours per day, the programme was conducted by Dr. Sangeeta Maheswari. This programme was organized to enhance the knowledge and for the development of the faculties. The seminar was conducted in room no. 2 of DOP.

The topics covered in her session are as follows:

1. Types of medication error
2. Causes of medication Error
3. Factors contributing to medication error
4. The 6 R's

On first day she started her session with the general introduction on the topic medication and medication error. She explained the definition of medication and medication error. A medication is a product that contains a compound with proven biological effects, excipients etc. A medication error is defined as "any preventable event that may cause or lead to inappropriate medication use or patient harm while the medication is in the control of the healthcare professional, patient, or consumer." She continued her session by explaining the types of medication errors. The types of medication are as follows:

- **Prescribing:** In this type she explained that the physician has prescribed a wrong medication to the patient. It can be any mistake happen by the prescriber like age of patient, gender of the patient etc. These factors mainly affect on the medication errors.
- **Wrong time:** This types errors occurs when the patient has taken his medication at wrong time. Like some medicine or drug has to taken before meal, but if the patient consume medicine after meal it will lead to some errors.
- **Improper dose:** In this type of drug the patient consume improper medication like instead of taking 5ml of cold syrup, patient took 10ml of syrup.
- **Lack of awareness of expiration dates:** Although expiration dates are printed on the bottle or label, many patients do not pay attention to the date and consume drug the expiry of the drug.

On second day she took her session on the topic causes of medication Error, in this she explained that the most common causes of medication errors is improper communication between the doctors and patient. And the others causes of medication errors are:

A. Errors of omission:

Registrar
Malwanchal University
Indore (M.P.)

PRINCIPAL
Index Institute of Pharmacy
Malwanchal University,
Indore

Errors related to prescription: Any mistake happen by the prescriber like age of patient, gender of the patient etc.

Drug dispensing by pharmacist: In this errors may cause while dispensing the medication, the patient gets changed.

Drug administration by the patient: This type of errors can cause when the patient does not administered his or her medication in proper way.

B. Errors of commission: most common form of errors encountered in clinical practice, include wrong phenomenon, drug interaction related, communication failure, overuse of drug.

On third day she took her session on the module factors contributing to medication error are as follows:

- Lack of knowledge of the prescribed drug, dose, patient details: This type of errors occurs when the pharmacist does not have the proper knowledge about the drug and its dose and also about the patient details like his age or gender.
- Illegible handwriting: This is the most common factors where the pharmacist was able to able to understand the handwriting of the physician, and by getting confused he dispensed wrong medication.
- Confusion with the drug name: some drugs which have same pronunciation but have different mechanism leads to medication errors, while confusing by these names of the drug the pharmacist dispense wrong medication to the patient.
- Inappropriate use of decimal point. This factors also cause medication errors, in this type the pharmacist was confused in the decimal point and he dispensed the wrong dosage to the patient.

On fourth day she took her session on the topic The 6 R's. The 6 R's are as follows:

1. Right patient
2. Right drug
3. Right dose
4. Right time
5. Right route
6. Right documentation

These are the 6 R's which will avoid the medication errors.

At last day of the session she guided the faculties to avoid these all the factors and cause to avoid medication errors.
